

SILEGO

RoHS Certificate of Compliance

Silego certifies that the following banned substances are not intentionally used for and/or added to the manufacturing process for Silego products to an extent that contravenes EU Directive 2011/65/EC (RoHS Directive).

- Asbestos and asbestos materials
- Ozone depleting substances class I (CFCs, HBFCs, etc.)
- Hexavalent chromium (Cr⁶⁺) and its compounds
- Cadmium and cadmium compounds
- Polybrominated biphenyls (PBBs)
- Polybrominated diphenyl ethers (PBDEs)
- Lead and lead compounds – Upper limit: Cu alloy <4wt. %, solder < 1000 ppm
- Mercury and mercury compounds
- DecaBDE
- PFOS
- Halogen Free
- Cobalt Dichloride
- Antimony

Silego requires its suppliers to submit complete technical documentation relating to the compliance of their products to “Green Requirements” as well as REACH directives and will pass this information on to our customers upon request, together with Silego’s own technical documentation.

Each of Silego’s manufacturing subcontractors are ISO 14001 certified as well as Sony Green Partners

Silego’s statements in this letter regarding compliance to environmental requirements do not extend to, or apply to the products subjected to unintentional contamination, misuse, neglect, accident, improper installation, or to use in violation of instructions furnished by Silego. Furthermore, this letter does not modify, alter or change the terms of the agreement or purchase order under which our customers order products. All warranties and limitations set forth in the relevant agreement or purchase order for the products shall continue to apply.
